Gideon Jagged

Freelance Writer, Author, Editor, Essayist
Astoria, Oregon

Summary

Author of Speculative & Erotic Fiction, Freelance Writing, Editor, Essayist.

<https://about.me/gideonjagged>

"The worn-out ideas of old-fashioned poetry played an important part in my alchemy of the word."

—Rimbaud

Experience

Alchemy of the Word
Author, Essayist, Editor
January 2000 - Present (20 years 5 months)
Pacific Coast

A man wearing many hats:

- Freelance Writer,
- Author,
- Editor,
- Proofreader,
- Typesetter,
- Cover Illustrator,
- Publisher,
- Printer,
- Book Binder,
- Web Designer,
- Webmaster,
- Social Media Guru,
- Promoter.

Advanced Solutions Group
Developer
January 2000 - January 2004 (4 years 1 month)

Application Development and Customer System Installation and Support

Designed and developed java version of MO:DCA Toolkit, an API for translating IBM MO:DCA files to Tiff/Jpeg format

Architected and coded Java version of WebDocs, an application for viewing MO:DCA images over the internet; application was then ported to three different architectures:

A standalone application

An applet

An enterprise application

Architected and coded DragonDrop, an application for simplifying the import of Documents into Content Manager.

Coded custom modifications of ImageNT, a program which allows computers to act as viewing and printing workstations for IBM's ImagePlus VisualInfo for AS/400.

Coded custom modifications C/C++ versions of MO:DCA Toolkit and WebDocs.

Lloyd Research Inc

Lead Programmer/Analyst

January 1998 - January 2000 (2 years 1 month)

Development and upgrading of custom database software

NDE (Non-Destructive Evaluation) project

Re-architected and coded program, used for tracking inspections of mining hardware at INCO's Sudbury mining operations, in more recent version of PowerBuilder, migrating data from Access95 to Oracle 7.3 database.

POS (Point-of-Sale) project

Architected and coded POS, an add-on to DataStream's MP2 fleet management software, to deal with over-the-counter sales required by a client.

Language used: PowerBuilder. Database: Access97.

PenSamp (Pen Computer Sampling) project

I created two programs designed to allow miners to enter data from new rock faces via pen computers. Architected and coded interface that allowed user to view/enter information graphically, which the program translates into data.

Language used: PowerBuilder. Database: Access97.

JTS (Job Tracking System) project

Co-developed JTS, initially for internal project management, but later sold to clients. Languages used: Visual Basic, Visual C++. Database: Access2000.

Laurentian University, Sudbury

Programmer/Network Technician

January 1996 - January 1998 (2 years 1 month)

Architected LAN configuration and managed LAN deployment for 1997 International Physics Olympiad.

Developed scripts to support multi-user environment with MSOffice97 on Citrix WinFrame thin client network.

Education

Laurentian University/Université Laurentienne

B.A., Computer Science · (1996 - 1999)

University of Toronto Mississauga

B.A., Philosophy · (1983 - 1987)
